MODULE

PROGRESS

	<div>Intro to Academy</div> <div>8 Sections Fundamental General</div> <div>Your first stop in Hack The Box Academy to become acquainted with the platform, its features, and its learning process.</div>	<div>100% Completed</div> <div></div>
	<div>Learning Process</div> <div>20 Sections Fundamental General</div> <div>The learning process is one of the essential and most important components that is often overlooked. This module does not teach you techniques to learn but describes the process of learning adapted to the field of information security. You will learn to understand how and when we learn best and increase and improve your learning efficiency greatly.</div>	<div>100% Completed</div> <div></div>
	<div>Linux Fundamentals</div> <div>30 Sections Fundamental General</div> <div>This module covers the fundamentals required to work comfortably with the Linux operating system and shell.</div>	<div>100% Completed</div> <div></div>
	<div>File Transfers</div> <div>10 Sections Medium Offensive</div> <div>During an assessment, it is very common for us to transfer files to and from a target system. This module covers file transfer techniques leveraging tools commonly available across all versions of Windows and Linux systems.</div>	<div>10% Completed</div> <div></div>
	<div>Web Requests</div> <div>8 Sections Fundamental General</div> <div>This module introduces the topic of HTTP web requests and how different web applications utilize them to communicate with their backends.</div>	<div>100% Completed</div> <div></div>
	<div>File Inclusion</div> <div>11 Sections Medium Offensive</div> <div>File Inclusion is a common web application vulnerability, which can be easily overlooked as part of a web application's functionality.</div>	<div>100% Completed</div> <div></div>
	<div>Introduction to Active Directory</div> <div>16 Sections Fundamental General</div> <div>Active Directory (AD) is present in the majority of corporate environments. Due to its many features and complexity, it presents a vast attack surface. To be successful as penetration testers and information security professionals, we must have a firm understanding of Active Directory fundamentals, AD structures, functionality, common AD flaws, misconfigurations, and defensive measures.</div>	<div>100% Completed</div> <div></div>

Introduction to Web Applications

17 Sections Fundamental General

In the Introduction to Web Applications module, you will learn all of the basics of how web applications work and begin to look at them from an information security perspective.

100% Completed

Setting Up

9 Sections Fundamental General

This module covers topics that will help us be better prepared before conducting penetration tests. Preparations before a penetration test can often take a lot of time and effort, and this module shows how to prepare efficiently.
